One of the first things you'll want to do after you crack Adobe Photoshop is to back up all your files. There have been cases where a cracker has infected the software with a virus, thus causing the user to lose all the files. If you don't back up your files, you could end up losing all of your work if you ever have to reinstall Adobe Photoshop. Also, never install a cracked version of software onto a computer that you don't own. Downloading cracked software is illegal, as it violates copyright laws, so make sure you use a software that you own before downloading one.
